# IRWIN FARMS

RT. 1, BOX 241  
SANDERSVILLE, GEORGIA 31082

Dear Friends:

Please consider this a personal invitation to attend one of the largest Shorthorn and Polled Shorthorn dispersal sales in the Southeast in recent years.

Every female owned by Irwin & Irwin Farms, with the exception of five, will be sold.

There will also be a consignment of 11 head from the Rebel Farms herd. These two herds have worked together closely for several years and have shared some outstanding sires.

The cattle will be offered in pasture condition, ready to go out and do a good job for the new owners, just as they have for us.

The major portion of the foundation females was purchased from Joe Glasser & Sons, Buckholts, Texas; W. G. Gresham, Austin, Texas; Col. George H. Miller, Thomas-ton, Georgia and purchases were made in the White Plains Dispersion, Mountville, S. C. and the Winwood Farms Dispersion, Brundige, Ala.

Since this was the principal occupation and major source of income for the managing partner, no effort has been spared to maintain a healthy, producing herd. They have been handled in a practical, profitable manner. Non-producers, poor producers and old cows have been culled with regularity.

The commercial cattle selling in the sale are for the most part purebred, un-recorded offspring of the registered animals cataloged in this sale. They should make an excellent beef producing unit.

We will continue in the cattle business. Our plans are to graze and feed steers of Shorthorn and Shorthorn-Cross when available. They are our choice through experienced and observation. "Universal Improvers", Shorthorns are best in every weight.

We look forward to having you with us on Sale Day, Friday, September 16, add some good ones to your herd or start a herd from this quality seedstock.

Sincerely,

Irwin and Irwin Farms  
by Chris Irwin, III

## *Comments By Sale Manager*

The dispersion of the Irwin and Irwin Farms herd of Shorthorns and Polled Shorthorns will present many buying opportunities to breeders wanting to add foundation females of quality and top bloodlines to their herd. This herd is a practical unit handled under good farm conditions where abundance of grass and good forage is produced from the fertile lands that are far reaching.

It is most unfortunate that the herd must be dispersed due to the death of the managing partner C. F. Irwin, Jr. who with his father C. F. Irwin, Sr. had witnessed the herd reach a profitable level.

I was very much impressed with the size and scale of the brood cows, as well as the way they have been handled for a profitable operation. While they are not fat, they exhibit the framework needed to utilize forage and have room to put on pounds of beef economically, as well as produce and raise a calf to desirable weights at weaning.

As you study the pedigrees of the offering you will note much of the Domestic and Imported blood that has kept the breed in the fore. Well known breeders of famous sires are to be observed. Much of the blood of Lo Mar Royalist, son of International grand champion Kelburn Banker Royal that sold for \$9,100 will sell. This blood was responsible for the successful White Plains sale where W P Silver Royalist was purchased. A son of Lo Mar Royalist, he left many good females in this herd. Two of his sons now serve the herd. Their get and service sells.

The herd is widely known for the production of many good bulls that serve in commercial herds who have been repeat customers year after year. Certainly this speaks well for the herd from a point of production in beef traits sanctioned by commercial cattlemen.

Rebel Farms will be a guest consignor with seven females and four bulls from their good herd. Richard Irwin is assisting with the sale, he and his nephew Chris Irwin have the records in good order and will be happy to assist anyone desiring additional information on the herd.

I will be at the farm two days prior the sale. If I can be of service to anyone please contact me. I will anticipate seeing you at the sale.

W. Scott Wilson,  
Auctioneer, Sale Manager

Sired by International grand champion Kelburn Banker Royal, he was perhaps the greatest breeding son of the famed sire used in the Lo Mar herd. His great fleshing qualities and his ability to pass it on to his offspring established this bull a superior sire. Much of the blood of this bull sells in the sale through his son, W.P. Silver Royalist we purchased in the White Plains dispersion.

We were fortunate to buy this good breeding sire in the White Plains Dispersal for \$1000. He was classified AA in Jan. 1965 - coming 10 years old - by the American Shorthorn Association. Most of his daughters have been retained by both the Rebel herd and the Irwin & Irwin herd and many of them will be offered in this sale.

# REBEL FARMS

(3 MILES NORTH ON ROUTE 15)

Sandersville, Georgia

## Statement by Richard Irwin, Owner

Irwin and Irwin Farms operated by my father and my brother has of course been close to my herd of registered Shorthorns. We have owned various sires jointly, thus our breeding is similar. Since our herd must be kept small because the capacity of our farm is limited, we are consigning seven bred females and four service age bulls to the sale realizing this will broaden the buying opportunities for everyone attending the sale.

During my association with the commercial cattle business beginning in the mid-thirties with a steer feeding operation, subsequently a breeding herd and again a steer operation, a few Shorthorn and Shorthorn-cross came our way. The performance of these animals on grass and in the feedlot convinced me that one day my choice would be to establish a herd of registered Shorthorns.

The Rebel Farms herd was established in 1959 with the purchase of a quality group of heifers and a one-half interest in W P Silver Royalist (Reference sire B in this catalog). This good son of the renowned breeding bull—Lo Mar Royalist has left us with an excellent group of daughters of which we are building our herd. (See Reference Sire A in this catalog).

Rebel Farms herd is Certified and Accredited since 1962. (T. B. Accredited Cert. No. 223) (Bangs Certified Certificate No. 237). Calfhood vaccination for females is practiced. We are members of Georgia B.C.I.A. since 1962.

We run our herd in a practical way, every calf is pasture raised by its dam. Our aim is to produce quality cattle under these natural conditions that will be profitable for us and those who use seedstock from our herd.

Finally, we invite you to attend the sale; whether you are interested in buying or not, you will be most welcome. Stop by to see us anytime you are in the area. This fall and winter we will have calves on the ground by our junior herd sire, REBEL ALLWOOD NOVELIST, by Louada Rothes King, we are anticipating their arrival.

We will look for you at the sale!

Richard Irwin, Owner

We were fortunate to buy this good breeding sire in the White Plains Dispersal for \$1000. He was classified AA in Jan. 1965 - coming 10 years old - by the American Shorthorn Association. Most of his daughters have been retained by both the Rebel herd and the Irwin & Irwin herd and many of them will be offered in this sale.

This proven sire was bought in the March 1963 Southeastern Regional Sale. He was grand champion at Jacksonville, Orlando, Palatka and Tallahassee as a young bull. Unfortunately he died in late 1964 and we do not have as many of his daughters as we would like. Three of his sons are being offered in the Rebel consignment.

A proven sire. BCIA grade Choice. This four year old has done a real good job in my Mother-in-law's herd of polled Herefords. A little thin but correct in his make up.

A proven sire. He is the first bull I loaned my Mother-in-law. She liked his calves so much she came back and borrowed four more. Not too large but a very smooth bull.
